**Script**

- Eigenvalues of a 10000x10000 random matrix
- Inverse of a 10000x10000 random matrix
- Linear regression over a 10000x10000 matrix ($c = a \setminus b$)
- 10000x10000 cross-product matrix ($b = a' * a$)
- Determinant of a 10000x10000 random matrix
- Cholesky decomposition of a 10000x10000 matrix
